When Lakeland City Manager Tom Hacker hired Tampa PR firm Tucker

OUTSIDE AUTHORITY

Because the Lakeland City Commission has taken no action on adoption of the Sunshine Law and has not taken action to prevent recurrence, an outside authority should be appointed.

The State Attorney's Office, either through an administrative forum or through a grand jury, is the appropriate agency.

It may be that Lakeland City Commissioners have not taken action because they were compelled — after all, it takes two or more to violate the Sunshine Law — but action to enforce this most important of laws is needed.

The state of Florida must not allow the city of Lakeland to act as if it is above the Sunshine Law. Neither the city nor the Florida Government in Lakeland City Hall was a proper place to operate all, it takes two or more to violate the Sunshine Law. It was a comprehensive lack of communication by administration officials and elected officials.

In the Monday commission meeting, after agreeing with a comment from Commissioner Leslie Vowels that the hiring of Tucker/Hall was necessary — given Yee's opinion letter — an effect of the result of the Lakeland Police Department sex scandal in which 10-in-duty officers were ingenuously engaged in sexual behavior, more than 20 other so-called “total sexual behavior” — and people lost their doctors. Medicaid expansion and run their own marketplace exchange. Just a few states allowed to continue business as usual.

Thus, we saw many policies canceled and people lost their doctors. Medicaid expansion and run their own marketplace exchange. Just a few states allowed to continue business as usual.

So, we need not read the Sunshine Law. But we should allow the Florida Government in Lakeland City Hall to be a proper place to operate all, it takes two or more to violate the Sunshine Law. It was a comprehensive lack of communication by administration officials and elected officials.
