

Turn Big Data into Big Digital Revenue

With the Digital Audit from AdMall PRO®

AdMall PRO's Digital Audit generates a real-time data capture of any client or prospect's digital presence in less than a minute.

- Uses real-time big data to **analyze the advertiser's activity and findability** in: digital advertising, local search, search engine optimization, social networking and incoming website traffic
- Provides a **Digital Opportunity Score** directing you to the accounts with the most digital revenue potential
- **Compares** the advertiser's use of digital to the **customers** who intend to buy what they're selling in the next 12 months
- **Compares** the advertiser to their top local **competitors**

Amp up your sales with the Digital Audit and AdMall PRO
