#### ANSWERS

#### Sticklers • Pg 23

100 red marbles. If you reasoned that you should remove two, you reasoned incorrectly. If you were to remove two only, you would then have 198 marbles, 196 would be red marbles in a tank of 198 marbles or 98.9898 percent. You would need to remove 100 red marbles to drop the proportion to exactly 98 percent.

Super Quiz • Pg 21
