The logo for Friends2Follow LLC features the company name in a white, sans-serif font on a blue rectangular background. The '2' is stylized as a large, bold number.

Friends2Follow helps media companies monetize their advertisers' social media with a turnkey, white label webpage "widget." This gives advertisers' posts a "megaphone" to the vast audience your sites attract. It works with most advertising and news systems, and employs dynamic scaling to automatically fit any mobile or desktop screen. You make the sale - our widget does the rest. We provide robust reporting, a leads tool and sales training. And we don't make money if you don't make money.

LEAP delivers data-driven audience solutions to optimize growth, engagement and monetization. Clients benefit from otherwise unachievable levels of marketing performance, operational efficiency and new revenue. At the heart of those solutions is a campaign management & automation platform enabling the integration of internal/external/online/offline data – and the reengineering of disjointed marketing projects into a cohesive, systematic & intelligent process for multi-platform audience growth.

Steve Lett, *North American Sales*
847-274-0490 • sl@libercus.com

Libercus is an editorial content management system that combines the digital and print production process into a single-source cloud solution. Libercus significantly reduces production costs by eliminating workflow inefficiencies and collapsing redundant hardware and software. By utilizing unique apps and a dynamic e-edition experience, Libercus provides revenue opportunities to publishers not traditionally associated with content management systems.

The Libercus logo features the word "Libercus" in a dark red, serif font. A small, stylized orange flame or spark is positioned above the letter 'i'.

813-654-3295 • chris@tansa.com

Tansa provides error-free text in seconds. Utilized by some of the world's largest news producers, Tansa's server-based proofing engine is tested daily in some of the most rigorous editing environments. Through its advanced text analysis, Tansa ensures correct AP and local style, while also checking for correct spelling, word usage, phrases and proper names. Print and digital publishers rely on Tansa to reduce errors and streamline their editing cycles.
